

Micron Optics – Nikon Microscope Systems

## Parfocal Dual Objective Turret for the SMZ-1500 Stereo Microscope

Parfocal dual turret nosepiece for the SMZ-1500 manufactured by Micron Optics. The Nikon Plan Apo 1.6x and 1x objectives are perfectly parfocal, and rotate cleanly into place with click stops. There is a special 0.5x objective available with excellent optical correction that is non-parfocal by only 2", which is well within the standard travel of the SMZ-1500 coarse focus.
